

Rubrik is seeking a skilled **Enterprise Integrations (EI) Engineer apprentice** reporting to the Manager of Enterprise Integrations & Intelligent Automations. As an EI Engineer apprentice, you will work on real-time REST API development and data integrations involving scheduled transfers from key SaaS systems such as NetSuite, Snowflake, Workday, and Salesforce.com. You will also be a key team member working with Enterprise Integrations teams to deliver Rubrik IT project demand in an agile manner.

Roles & Responsibilities:

- Work on basic to moderate complexity integrations and associated tasks
- Documenting every part of the development process for further work and maintenance
- Performing coding assignments
- Providing regular updates to the senior team members
- Working with the Enterprise Integrations team to unblock deliverables
- Monitor Integration Logs
- Assist in Mulesoft Integration Development
- Testing and Troubleshooting
- Adapt and learn new iPaaS, Automation, etc, tools as per the organization's requirements

Key Qualification:

- A Bachelor's Degree in Computer/Information Technology is preferred
- Strong Communication Skills
- Good with Documentation
- Good Analytical & Logical Understanding
- Familiarity with the Anypoint Studio IDE/similar IDE for developing applications is a huge plus
- Basic Programming Knowledge (Java, Python, SQL, etc.)
- Data Formats: Understanding of data formats like XML, JSON, and CSV
- Enterprise Integration Technologies: A desire to learn and grow in the field of integration technologies and iPaaS (Integration Platform as a Service)
- Problem-solving: Ability to identify and resolve technical issues
- GitHub: Optional knowledge of GitHub for version control
- Familiarity with the API concepts and REST principles
